

TYPE JCC-S JUMBO CC-S

The **JUMBO CC-S®** is an ultra heavy duty version of the CC-S heavy duty elevator bucket, and part of 4B's High Efficiency bucket range.

It is intended for the most severe applications, including port terminals, ethanol plants and highly abrasive materials.

It offers the greatest capacity and thickest front lip, corners and walls available. The unique Iceberg Edge front face delivers impact resistance and long life. It shares the proven geometry and design features of the CC-S, including the benefit of stackability, which saves on freight costs and storage space.

ULTRA HEAVY-DUTY CC-S STYLE HDP / NYLON / POLYURETHANE

* JCC-S buckets are a gray/blue colour in HDP and dark green in Nylon.

UNIQUE ICEBERG® EDGE

Front lip offers superior material thickness for the ultimate in wear resistance and long life. Its triangular base creates a stiffening ridge across the front face of the bucket, preventing bowing and ensuring a consistent discharge over the life of the bucket. The tapered leading edge generates a low digging factor. This means less material resistance, less material degradation and fewer forces on the bucket system.
